

## **Non-Licensable Work with Asbestos including NNLW (UKATA)**

### **Who should attend?**

Any person who has completed the initial UKATA Asbestos Awareness course in the last 12 months, and those who in the course of their work activities may be called upon to plan the works, interact with or remove ACMs falling into the non-licensable categories

### **Course Aims & Objectives**

The Control of Asbestos Regulations 2012 requires every employer to ensure that adequate information, instruction and training be given to its employees who are liable to be exposed to asbestos, or who supervise such employees.

This course is designed to provide delegates with the theoretical and practical skills required to undertake non-licensable work.

### **Course Outline**

On successful completion of the course delegates will have a detailed understanding of the Equipment and Method Sheets:

- EM1 – What to do if you uncover or damage materials that may contain asbestos
- EM2 – Training
- EM3 – Building and dismantling a mini-enclosure
- EM4 – Using a Class H vacuum
- EM5 – Wetting asbestos materials
- EM6 – Personal Protective Equipment
- EM7 – using damp rags to clean surfaces of minor asbestos contamination
- EM8 – Personal decontamination
- EM9 – Disposal of asbestos waste
- EM10 – Statement of cleanliness after textured coating removal

Delegates will also have theoretical and/or practical knowledge of the safe working methods for non-licenced ACMs, including notifiable non-licenced works, dependant on the scope of works identified in your Training Needs Analysis

### **Certification**

On successful completion of the course, delegates will be issued with a UKATA Certificate which is valid for 12 months, after which the UKATA Non-Licensable Work with Asbestos including NNLW Refresher course can be taken.

### **Duration**

1 Day

### **Location**

We can offer courses on company premises for a maximum of 12 delegates or upcoming open courses in your local area.
