

NEBOSH National General Certificate

Who should attend?

This course is for managers, supervisors and staff from all types of organisations who need a broad understanding of health & safety issues and wish to gain a formal qualification.

Course Aims & Objectives

The purpose of the course is to give delegates an understanding of how to manage Health & Safety in the workplace to create a safer working environment for everybody.

By the end of the course delegates will:

- Identify the common hazards and unsafe practices likely to be found in the workplace and know the appropriate preventative and remedial actions to be taken
- Monitor and audit management policies, procedures and performance in securing health & safety in the workplace
- Interpret the requirements of health and welfare legislation and guidance which apply to the workplace
- Assist in the preparation and regular review of safety policies
- Use proactive and reactive strategies to prevent or reduce the risk of accidents and ill health
- Organise the work of a safety committee and manage relations with worker representatives
- Select an appropriate inspection technique for a specific work situation and undertake workplace inspections
